

## Weighing Solution

OPTIMIZATION  
OF GIVEAWAY  
AND MAXIMUM  
PRODUCTIVITY

### SSC9200

WEIGHING SCALE

- ✓ Profit maximization
- ✓ ROI within 3-12 months
- ✓ Dynamic regulation of weight limits

VEGETABLES  
& FRUITS

MEAT

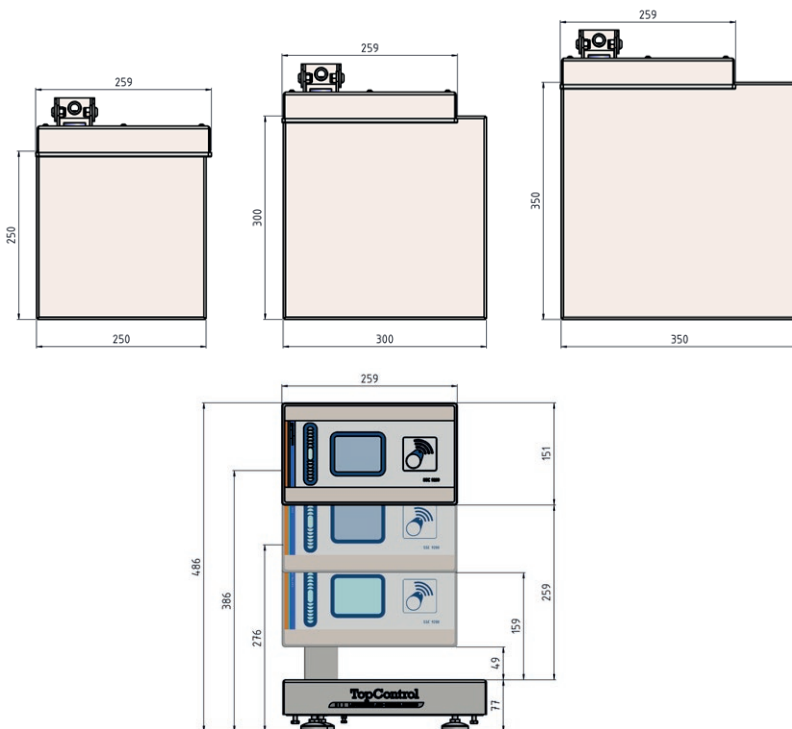

CHEESE

## SSC9200 WEIGHING SCALE

The weighing scale SSC9200 optimizes the giveaway of the packed goods. Integrated in the network, the weights are recorded directly in the central TopControl software StatisticsWeights. Therefore, an increase in profits is provided by avoiding unnecessary overfilling. The high accuracy of the scale and the intuitive handling allow significant time and cost savings.

### HIGHLIGHTS

- Optimization of giveaway and maximum productivity through integrated LED-display
- Profit maximization
- ROI within 3-12 months
- Packing according WELMEC 6.4/e for finished packs
- Dynamic regulation of weight limits
- Levelling or extraction weighing definable per article
- Efficient staff time recording with integrated RFID reader
- Registration of entry batches and waste
- Complete control and registration through the TopControl software StatisticsWeights or FruitManager
- Intuitive touch display

### OPTION

- Optional load cell in stainless steel
- Optional with rechargeable battery

### TECHNICAL DETAILS

- Weighing platform, stainless steel  
Types: 250 x 250 mm,  
300 x 300 mm, 350 x 350 mm
- Weighing range/division:  
3 kg/1 g – 6 kg/1 g – 6 kg/2 g  
12 kg/2 g – 15 kg/1 g – 15 kg/2 g  
15 kg/5 g – 20 kg/5 g – 30 kg/10 g
- Power supply via Adapter 24V
- Electric power: 10W
- Protection: IP67
- Interfaces: Wi-Fi
- Colour LCD touch display 3,2 inches
