**weighing**  
solutions

RSC 9200  
**Removal scale**

Increase in productivity by more than 50%

Maximum reduction of giveaway

Optimized and gentle packaging process

Mobile and ergonomic construction

**Precise weighing creates the conditions for an optimal, efficient, fast and simple packing process.**

The high-resolution removal scale RSC9200 ensures exactly this: using the principle of picking out a total amount of goods, allows to portion optimal units of products. From the box on the scale the predefined partial quantity is removed and placed in the sales packaging. An intuitive touch display helps the operator to portion quickly and accurately to the gram. This reduces the giveaway to a minimum and enables an increase in productivity by 50%.

As a result, it is possible to achieve a halving of the packing times and a significant increase in the weighing accuracy of products from the food industry. The personnel time recording of the employees is carried out simply by registering on a transponder reader integrated in the scale. Integrated into the WLAN network, each scale transmits the weight data and personnel time to the central TopControl software.

## HIGHLIGHTS

Increase in productivity by more than 50%

Profit maximization

ROI within 3-12 months

Increase in productivity by 50%

Mobile and ergonomic construction - IP67

Easy integration into the packaging process

Packing according to WELMEC 6.4/e for pre-packed goods

Dynamische Gewichtsgrenzregelung

Intuitive touch display with integrated transponder reader for working time recording

Equalising or withdrawal weighing can be defined per article

Complete control and registration of weight and performance data through the TopControl software

## TECHNICAL PROPERTIES

|  |  |
|--|--|
| Dimension (L/W/H)                            | 889 mm x 1042 mm x 1595 mm (+250 mm)                       |
| Load capacity/division                       | 20 kg/1 g - 30 kg/2 g                                      |
| Protection class                             | IP67   |
| Power supply                                 | 220V   |
| Interfaces                                   | Ethernet 10 base T, TCP/IP, RS 232, RS 422 und WLAN 2.4GHz |
| Maximum box size                             | 600x400x216 mm   |
| Display                                      | Colour LCD touch display 7 inch                            |
| (!) Non-verifiable scales - for internal use |  |
